PUBLICATIONS: INTERNET:

- The FSDeduction team was founded in 2005 to develop a web-based educational program on FSD in menopause for physicians in Europe (with an unrestricted educational grant by P&GP). It is now available in 6 languages (english, german, french, italian, spanish, dutch), offers CME accreditations in some of the countries and continuously develops educational modules targeted to office-based physicians. The multi-functional expert team comprises of now 13 experts in the area of menopause, sexual medicine and gynecology from 7 European countries (Farrok Al-Azzawi, John Studd and Kevan Wylie from UK, Peter Kenemans from NL, Ulrike Brandenburg and Anne Schwenkhagen from Germany, Johannes Bitzer from Switzerland, Alessandra Graziottin and Rossella Nappi from Italy, Santiago Palacios and Inigo Saenz de Tejada from Spain, Michele Lachowsky and Sylvain Mimoun from France). This team has dedicated a huge amount of time, enthusiasm and patience into this program development, which now consists of 4 Modules around FSD in menopause. IMS has asked if this team would be willing to cooperate with IMS in the educational activities that IMS plans also for FSD.
